

LOREX[®] 4K ULTRA HD FUSION NETWORK VIDEO RECORDER

4K Recording with Lorex Fusion

Record and view clear 4K video resolution, which provides a heightened level of detail and definition. As part of the Lorex Fusion collection you can tailor your security system to your needs - simply pair this NVR with wired and Wi-Fi security cameras, video doorbells, floodlights and sensors. Thanks to smart home compatibility, enjoy seamless viewing by syncing your system to your smart home device. Be confident that your security footage is private and securely stored with the built-in security grade hard drive and never have to worry about any hidden monthly fees. Safeguard features missing and left behind object detection, giving the ability to select up to 3 fields of view. Receive notifications if items in these areas go missing or are left behind, such as a package. Quickly locate Smart Motion Detection events and filter by area, time/date, person, vehicle or person's face with Smart Search, saving time when reviewing footage. With 4K resolution, Fusion capabilities, smart home compatibility and Smart Motion Detection, this recorder's performance is unmatched.

Quick Setup Guide

Disclaimers:

1. 4K (8MP) IP cameras are required to take advantage of 4K recording.
2. Recording time may vary based on recording resolution and quality, lighting conditions and movement in the scene.
3. Fusion™ capabilities are limited to 2 wireless devices per system. Wireless devices require an available channel on the NVR as well as a sufficient signal strength between the device(s) and your Wi-Fi router for video streaming. For full details on Wi-Fi cameras compatibility and instructions, visit www.lorex.com/pages/fusion
4. Controlling certain features in your security system requires a compatible smart device. Availability and performance of certain features and services are smart device dependent and may not be available in all areas or networks. For compatibility, features, and instructions visit www.lorex.com/smarthome
5. Compatible with certain Lorex IP and select wireless cameras only. For a list of compatible cameras please visit www.lorex.com/compatibility
6. Accessing your security system remotely requires a high-speed Internet connection. Ensure your NVR has a wired connection to a router (not included). A minimum upload speed of 5Mbps is recommended for reasonable video performance. Up to 3 devices may connect to the system at the same time. For the latest list of supported apps and devices, please visit www.lorex.com/compatibility
7. HDMI output supports 4K HD for high definition multi-channel live or recorded video viewing. Image quality and resolution is dependent on the type of camera connected to the NVR, as well as TV/monitor resolution.
